Welcome

Welcome to this learning pathway that brings together a multitude of Microsoft resources to help you learn and grow in the field of Generative AI.

[Get out of the gate quickly and easily by following the learning recommendations on this page.](#)

Alternatively, please review the content over the next few pages for a carefully curated selection of content to support your learning journey.

Key

- █ Virtual Training Day (VTD)
- Certification Content
- █ Video (VoD)
- █ Self-Study
- █ LinkedIn Learning (free)
- █ Documentation

Generative AI Essentials

Build the skills you need for the digital economy

LinkedIn and Microsoft have teamed up to provide free courses to help you keep your skills relevant. Check them out [HERE](#). They currently include:

Career Essentials in Generative AI

Learn the core concepts of Artificial Intelligence and generative AI functionality. This learning path will introduce currently available generative AI tools, explore their impacts, and discuss the importance of ethical considerations when using them.

- Develop an understanding of generative AI models
- Learn the ethical considerations of using generative AI
- Explore the impact of generative AI tools
- Basics of Microsoft 365 Copilot

Productivity with Generative AI

Learn how to apply generative AI skills to your work to boost your productivity. Transform raw data into meaningful insights, create compelling presentations, and generate creative images using the latest tools.

- Explore prompt engineering
- Practice leveraging generative AI in productivity software
- Analyze data with Copilot

Career Essentials in Generative AI

Discover the skills needed to apply generative AI in your career. Learn the core concepts of artificial intelligence and generative AI functionality. Free content provided by LinkedIn.

LinkedIn Learning

1. What is Generative AI

Get Started

2. The Evolution of Thoughtful online search

Get Started

3. Streamlining your work with Microsoft Bing Chat

Get Started

4. Microsoft 365 Copilot. First Look.

Get Started

5. Ethics in the Age of Generative AI

Get Started

6. Introduction to Artificial Intelligence

Get Started

Build Your Generative AI Productivity Skills

Learn how to apply generative AI skills to your work to boost your productivity. Transform raw data into meaningful insights, create compelling presentations, and generate creative images using the latest tools.. Free content provided by LinkedIn.

LinkedIn Learning

1. Introduction to Prompt Engineering for Generative AI

Get Started

2. AI Productivity Hacks to Reimagine Your Workday and Career

Get Started

3. Generative AI Skills for Creative Content: Opportunities, Issues and Ethics

Get Started

4. Copilot in PowerPoint: From Prompt to Presentation

Get Started

5. Excel with Copilot: AI-Driven Data Analysis

- [For business leaders in the healthcare industry](#)
- [Microsoft AI for healthcare professionals](#)
- [Microsoft AI for leaders in manufacturing](#)
- [Discover Microsoft AI for leaders in retail](#)
- [Get started with copilot template for store operations](#)
- [Discover Microsoft AI for leaders in sustainability](#)

Craft effective prompts for Microsoft Copilot for Microsoft 365

Discover ways to craft effective and contextual prompts for Microsoft Copilot for Microsoft 365 that create, simplify, transform, and compile content across Microsoft 365 applications.

[START](#)

Get ready for Copilot for Microsoft 365

Microsoft 365

- [MS-012 Prepare your organization for Copilot for Microsoft 365](#)

Part 1 – Copilot design and prerequisites

- [Examine the Copilot for Microsoft 365 design](#)
- [Implement Copilot for Microsoft 365](#)

Part 2 – Administrative roles and Tenant health

- [Configure administrative roles in Microsoft 365](#)
- [Manage tenant health and services in Microsoft 365](#)

Part 3 – Threat protection

- [Explore threat intelligence in Microsoft 365 Defender](#)
- [Implement app protection by using Microsoft Defender for Cloud Apps](#)
- [Implement endpoint protection by using Microsoft Defender for Endpoint](#)
- [Implement threat protection by using Microsoft Defender for Office 365](#)

Part 4 – Protecting sensitive data

- [Implement data classification of sensitive information](#)
- [Explore sensitivity labels](#)
- [Implement sensitivity labels](#)
- [Explore Microsoft Purview Data Loss Prevention](#)
- [Implement Microsoft Purview Data Loss Prevention](#)

[Access the Collection](#)

Meet Copilot

Fundamentals of Generative AI

- [Introduction](#)
- [What is generative AI?](#)
- [Large Language Models](#)
- [What is Azure OpenAI?](#)
- [What are copilots?](#)
- [Improve generative AI responses with prompt engineering](#)
- [Exercise – Explore generative AI with Bing Copilot](#)

Fundamentals of Azure OpenAI Service

- [Introduction](#)
- [What is Generative AI](#)
- [Describe Azure OpenAI](#)
- [How to use Azure OpenAI](#)
- [Understand the natural language capabilities](#)
- [Understand the code generation capabilities](#)
- [Understand the image generation capabilities](#)
- [Describe Azure OpenAI's access and responsible AI policies](#)
- [Exercise – Explore Azure OpenAI Service](#)

Get started with Azure OpenAI Service

- [Introduction](#)
- [Access Azure OpenAI Service](#)
- [Use Azure OpenAI Studio](#)
- [Explore types of generative AI models](#)
- [Deploy generative AI models](#)
- [Use prompts to get completions from models](#)
- [Test models in Azure OpenAI Studio's playgrounds](#)
- [Exercise – Get started with the Service](#)

Microsoft Learn – Get Started

Build natural language solutions with Azure OpenAI Service

- [Introduction](#)
- [Integrate Azure OpenAI into your app](#)
- [Use Azure OpenAI REST API](#)
- [Use Azure OpenAI SDK](#)
- [Exercise – Integrate into your app](#)

Apply prompt engineering with Azure OpenAI Service

- [Introduction](#)
- [Understand prompt engineering](#)
- [Write more effective prompts](#)
- [Provide context to improve accuracy](#)
- [Exercise – Utilize prompt engineering in your application](#)

Generate code with the Azure OpenAI Service

- [Introduction](#)
- [Construct code from natural language](#)
- [Complete code and assist the development process](#)
- [Fix bugs and improve your code](#)
- [Exercise: Generate and improve code with Azure OpenAI Service](#)

Generate images with the Azure OpenAI Service

- [Introduction](#)
- [What is DALL-E?](#)
- [Explore DALL-E in Azure OpenAI Studio](#)
- [Use the Azure OpenAI REST API to consume DALL-E models](#)
- [Exercise – Generate images with a DALL-E model](#)

Implement Retrieval Augmented Generation (RAG)

- [Introduction](#)
- [Understand Retrieval Augmented Generation \(RAG\) with Azure OpenAI Service](#)
- [Add your own data source](#)
- [Chat with your model using your own data](#)
- [Exercise: Add your data for RAG with Azure OpenAI Service](#)

Fundamentals of Responsible Generative AI

- [Introduction](#)
- [Plan a responsible generative AI solution](#)
- [Identify potential harms](#)
- [Measure potential harms](#)
- [Mitigate potential harms](#)
- [Operate a responsible generative AI solution](#)
- [Exercise – Explore content filters in Azure OpenAI Service](#)

Microsoft Copilot for Microsoft 365 Executive Challenge

This experience, tailored for the modern business leader, provides insights on crafting contextual prompts for Copilot and includes engaging use case exercises that showcase seamless integration into daily workflows.
